Contact No: +91-7838799646, Email: mohd.afroj.soft@gmail.com

Professional Summary

Senior Full Stack Developer with 12+ years of experience in designing and developing scalable web applications using Vue.js, React.js, Angular, FastAPI, NestJS, Laravel, and microservices architecture. Experienced in delivering enterprise-grade solutions for government and enterprise clients including Parliament House and UPSC. Skilled in AI-assisted software development, reusable architecture, API development, and technical leadership.

- Collaborate with Staff Engineers and Product Managers to define, refine, and implement the architecture of new products.
- Own the end-to-end design, development, testing, deployment, and maintenance of features from concept to production.
- Demonstrate the ability to build and own full-stack features, from database design and backend development to frontend implementation.
- Write comprehensive unit, integration, and end-to-end tests to ensure code quality, performance, and system reliability.

AI-Assisted Development & Engineering Productivity

- ✓ Experienced in leveraging advanced coding AI models such as Claude (Haiku 4.5), Minimax M2.5, Antigravity and Poolside coding models to accelerate software delivery and improve code quality.
- ✓ Utilize AI-assisted workflows for:
 - Code generation and refactoring
 - Debugging and issue resolution
 - API development and documentation
 - Architecture brainstorming and optimization
 - Unit test generation and code review
 - Performance optimization and reusable component design
- ✓ Increased development efficiency by using AI-assisted coding for faster prototyping, bug fixing, and technical problem-solving.

Work Experience:

"Aurionpro Solutions Ltd.", Maharashtra, India (Full Stack Developer), Feb 2025 to Present

- ✓ Working as a Full Stack Developer for Parliament House clients, contributing to the **Sampoorn Digital Sansad** project in Delhi.
- ✓ Developed high-performance, reusable modules using AI-assisted development workflows, accelerating implementation, debugging, and optimization across frontend and backend systems.
- ✓ Designed and developed scalable REST APIs using FastAPI, NestJS, and Laravel for attendance, member onboarding, claims, and committee modules, leveraging AI-assisted coding for rapid prototyping, debugging, and code optimization.
- ✓ Designed and implemented reusable backend and frontend encryption utilities using AES GCM, shared across microservices.
- ✓ Built reusable packages for consistent layout and components across projects:
 - a) `@sds/oneui-layout`: Provides a standardized layout structure.
 - b) `@sds/oneui-common-ui`: Contains shared UI components.
 - c) `@sds/oneui-validations`: Includes reusable validation utilities.
- ✓ Provided technical leadership to a small team.
- ✓ Collaborated with the BA on FRS and worked with the Figma team to refine UI/UX.

“Corporate Infotech Pvt. Ltd.”, Noida, India (Senior Full Stack Developer), Apr 2024 to Aug 2024

- ✓ Worked as a Senior Full Stack Developer for UPSC clients, contributing to the revamp of the UPSC Portal project in Delhi.
- ✓ Developing a high-performance module on web application by writing reusable & efficient code.
- ✓ Managed and guided a small team of developers.
- ✓ Collaborated with the BA to review and update the FRS and coordinate with the Figma design team for implementing required changes.

“AAPC INDIA Pvt. Ltd.”, Noida, India (Senior Software Engineer), Dec 2019 to Nov 2023

- ✓ Delivered business critical tickets on priority after sprint start as business requirements.
- ✓ Developed a high-performance module on web application by writing reusable & efficient code.
- ✓ Prepared technical documentation and provided regular project updates as required.
- ✓ Collaborated with html developers, stakeholders, and SEO team.
- ✓ Reported directly to team lead and created tickets on Jira Tool for performance improvements.
- ✓ Identified application performance bottlenecks and created Jira tickets for optimization.

“Perfume Booth Pvt. Ltd.”, New Delhi, India (Senior Software Engineer), May 2017 to Nov 2019

- ✓ Developed a high-performance module and component by writing reusable and efficient code.
- ✓ Analyzed applications and implemented enhancements to improve user experience and UI usability.
- ✓ Managed a small team.
- ✓ Discussed with PO on business needs and reported to him.
- ✓ Handled server-side components and communicated with the server team on needs.

“B. Jain Publishers Pvt. Ltd.”, Noida, India (PHP Developer), Jan 2013 to Apr 2017

- ✓ Worked directly with business owners and team lead for requirements.
- ✓ Developed efficient & reusable codes for php modules and features.
- ✓ Collaborated with team members, designer, tester and SEO.
- ✓ Reported progress and issues to team lead.

Primary Technical Skills:

- ✓ **Prompt engineering:** Code generation, debugging, refactoring, and technical documentation.
- ✓ **Languages:** Python, JavaScript (ES6+), TypeScript.
- ✓ **Frontend:** Vue 3, Composition API, React.js, Angular.
- ✓ **Backend:** Fastapi, Node.js, Nest.js, Laravel, RESTful APIs.
- ✓ **Databases:** MySQL, MongoDB, Redis.
- ✓ **Containerization and Orchestration:** Docker, Kubernetes.
- ✓ **DevOps:** GCP, Azure, CI/CD, Jenkins, Git, Jest.
- ✓ **AI-assisted development:** Claude Haiku 4.5, Minimax M2.5, Poolside coding models.

Secondary Technical Skills:

- ✓ **Languages:** PHP, Python, HTML CSS, JavaScript, jQuery.
- ✓ **Frameworks:** Django, Express.js, Laravel, CodeIgniter.
- ✓ **Databases:** MySQL, PostgreSQL, MongoDB.
- ✓ **Tools:** WinSCP, FileZilla, MS Office.

Responsibility:

- ✓ Great organizational and time management skills.

- ✓ Availability to urgent issues resolution beyond business hours.
- ✓ Superb interpersonal, communication, and collaboration skills.
- ✓ An effective team player with exceptional planning and execution skills.

Projects:

- ✓ www.aapc.com/codes - Worked on different modules as business requirement, using Python, PHP, MySQL, Redis, HTML, CSS, ReactJS.
- ✓ www.perfumebooth.com & www.perfumersclub.com - Did the development of a scalable e-commerce platform using Angular, and PHP/MySQL, resulting in a 30% increase in online sales.
- ✓ www.bjain.com, www.bjainbooks.com & www.pegasusforkids.com - Superb interpersonal, communication and collaboration skills.
- ✓ www.tavus.io - Tavus is a huge project with different multi functionality, Tavus is an AI based video cloning platform that creates hundreds of unique personalized videos in seconds, using NodeJS, Typescript, Express.js, Microservices, PostgreSQL.
- ✓ savve.io - SAVVE is a community that fosters promising tokens and cryptocurrencies in the market. Our focus is on identifying and promoting assets with high profit potential, using NodeJS, Typescript, NestJS.
- ✓ myhealth.coligomed.com - Digital health platform that connects patients, caregivers, healthcare professionals and health plan providers through data interoperability, by using NodeJS, Express.js, Typescript, ES6, Javascript, Microservices, Elastic Search, Postgresql, Kafka, Redis.
